Piotr Romanczuk

Software Engineer

p.romanczuk@gmail.com | +48 513 602 768 | Warsaw, Poland | github.com/PiotrRomanczuk | romanczuk.vercel.app

SUMMARY

Software engineer and guitar teacher based in Warsaw, Poland. Career spans international hospitality, e-commerce, and music education — bringing strong adaptability and people skills to every role. Now specializing in full-stack web development with TypeScript, React, Next.js, and Tailwind CSS, shipping production apps and commercial client projects.

SELECTED PROJECTS

Guitar CRM — strummy.vercel.app

- Production SaaS serving 20–30 daily users — student management, lesson scheduling, practice tracking
- Spotify-enriched song library with circuit breaker + 8-strategy fuzzy matching
- Bidirectional Google Calendar sync with SSE streaming
- 9 AI agents (OpenRouter + Ollama) for lesson planning and content generation
- 50+ RLS policies, event-driven notification pipeline, 1,100+ tests across 7 device profiles

TypeScript | Next.js | Supabase | Spotify API | Google Calendar | OpenRouter/Ollama

Instagram Stories Webhook — stories-webhook.vercel.app

- SaaS for programmatic Instagram Story publishing with swipe-to-approve review queue
- 3-tier video pipeline: FFmpeg.wasm client validation → server transcoding → signed-URL uploads
- Distributed cron locking for serverless deduplication on Vercel edge functions
- Meta Graph API 3-step container flow with error classification and retry logic
- Drag-and-drop calendar scheduling, Supabase realtime sync — 656 tests, 35 releases

TypeScript | Next.js | Supabase | Meta Graph API | FFmpeg | Vercel Cron

BACKGROUND

2021 — Present | **Software Engineer & Entrepreneur (Self-taught)**

Self-taught full-stack developer. Progressed from JavaScript fundamentals through React and TypeScript to shipping production Next.js apps with auth, databases, and CI/CD. Currently running multiple live products — business CRMs, real-time data visualizations, and commercial client projects.

2022 — Present | **Guitar Teacher**

- Private and group guitar lessons for all ages and skill levels, building tailored curricula
- Developed a custom CRM (Guitar CRM) to manage 20–30 active students, scheduling, and progress tracking

2020 — 2022 | **PC Sales Specialist**

- Consulted clients on custom PC builds and hardware upgrades in a retail environment
- Consistently exceeded monthly sales targets; developed strong technical communication skills

2015 — 2020 | **International Chef**

- Worked in professional kitchens across multiple countries, adapting to diverse teams and high-pressure environments
- Built cross-cultural communication skills and a strong work ethic in fast-paced hospitality settings
